SUPARNA DEB BURMAN

SUMMARY

Computer Science Engineering student specializing in full-stack development (Java/Spring Boot, MERN). Built and deployed two production-style applications implementing JWT authentication, role-based access control, and RESTful API architecture. Seeking an SDE/full-stack internship or entry-level role to apply hands-on engineering skills to real-world systems.

EDUCATION

Bachelor of Engineering (B.E.): Computer Science Engineering_Expected in 01/2027
Chandigarh University

Intermediate (Class XII)
GMSSS-33D - Chandigarh

Matriculation (Class X)
Blue Bird High School

PROJECTS

- **HelpHive – Full-Stack NGO/Volunteer Platform, 2026, React.js, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs, HTML, CSS.** Built a full-stack MERN application connecting verified NGOs with volunteers across 2 distinct user roles, supporting end-to-end recruitment and engagement workflows., Engineered JWT-based authentication with role-based access control (RBAC) middleware, securing REST API endpoints and enforcing role-specific access for NGO and volunteer dashboards., Designed an NGO verification workflow to validate organization credibility before platform access is granted, reducing risk of fraudulent listings., Introduced a badge-based recognition system for volunteer retention and repeat engagement., Deployed the application on [Vercel/Render/AWS — specify], making it publicly accessible; add live demo + GitHub links.
- **Secure File Sharing Web Application, 2026, React.js, Spring Boot, Spring Security, REST APIs,** Developed a secure file-sharing platform using React.js and Spring Boot, enabling authenticated users to upload, manage, and share files., Implemented role-based authentication and access control to restrict file operations to authorized users only., Designed and integrated RESTful APIs to handle file upload, retrieval, and access-control logic between frontend and backend., Built a responsive React.js frontend [with state management / component library — specify] for an intuitive file management experience.

SKILLS

- **Languages:** Java, JavaScript, SQL
- **Frameworks & Libraries:** Spring Boot, Spring Security, React.js, Redux, Node.js, Express.js
- **Web & APIs:** REST API Design, HTML5, CSS3, JWT Authentication, Role-Based Access Control (RBAC)
- Cloud deployment
- **Databases:** MongoDB, MySQL (confirm/replace with what you've actually used)
- **Tools & Practices:** Git, GitHub, Maven, Bruno (API testing), Postman, Agile/Scrum basics
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP)

CERTIFICATIONS

- Certification in Creating User Interface in Android studio,
- Certification in Building a Computer Vision App using Azure Cognitive Services
- Certification in Introduction to Software Management System.
